~ Notes ~

Each course applied toward certification must be at least 24 hours in length.

Related courses may be bundled together to total or exceed 24 hours.

This list is not all inclusive – It includes current POST-certified course offerings only.

Any course considered for certification must be investigative-related.

Of the three additional courses necessary for certification (excluding the Core & Foundation Specialty Courses), at least one must be an elective course from the category of your chosen foundation specialty.

All foundation specialty and elective courses also count as universal courses.
